

PROGRAMMING IN JAVA

Assignment8

TYPE OF QUESTION: MCQ

Number of questions: 10

Total mark: $10 \times 1 = 10$

QUESTION 1:

Which of the following is **NOT** a class of **java.awt** package?

- a. Color
- b. Composite
- c. Container
- d. Cursor

Correct Answer: b

Detailed Solution:

Composite is an interface of the java.awt **package**.

QUESTION 2:

Which of the following is/are **NOT** an exception of **java.awt** package?

- a. HeadlessException
- b. AWTException
- c. FontFormatException
- d. IllegalStateException

Correct Answer: d

Detailed Solution:

IllegalStateException doesnot belong to **java.awt** package.

QUESTION 3:

Which of the following method is/are of class button in java.awt package ?

- a. getLabel()

- b. `setLabel(String label)`
- c. `getCurrent()`
- d. `getItem(int index)`

Correct Answer: a, b

Detailed Solution:

`setLabel(String label)` method Changes this button's label to be the String argument and `getLabel()` method returns the current label of the button.

QUESTION 4:

Which of the following is TRUE about the following GUI?

- a. There is a Frame and two TextFields.
- b. There is a Frame with two Labels and two non-editable TextFields.
- c. There are two Labels.
- d. There is a Frame with two Labels and two TextFields.

Correct Answer: d

Detailed Solution:

There is a Frame with two Labels and two TextFields in the given GUI.

QUESTION 5:

Which of the following is TRUE regarding check box and radio button?

- a. Check box is used for single selection item whereas radio button is used for multiple selection.
- b. Check box is used for multiple selection items whereas radio button is used for single selection.
- c. Both are used for multiple as well as single item selection.
- d. Checkbox is always preferred than radio buttons.

Correct Answer: b

Detailed Solution:

Check box is used for multiple selection items whereas radio button is used for single selection. For example, if a form is asking for your favorite hobbies, there might be multiple correct answers to it, in that case check box is preferred. And if a form is asking about gender, there must be only one true option among the multiple choices, in that case radio buttons are used.

QUESTION 6:

Which of the following is TRUE about check box in Java?

- a. A check box can be in either an "on" (true) or "off" (false) state.
- b. Clicking on a check box changes its state from "on" to "off," or from "off" to "on."
- c. A check box can be in an "on" (true) and in "off" (false) state simultaneously.
- d. Check boxes cannot be grouped together.

Correct Answer: a, b

Detailed Solution:

A check box is a graphical component that can be in either an "on" (true) or "off" (false) state. Clicking on a check box changes its state from "on" to "off," or from "off" to "on.". A check box cannot be in both "on" and "off" state simultaneously. Further, several check boxes can be grouped together under the control of a single object, using the CheckboxGroup class. In a check box group, at most one button can be in the "on" state at any given time. Clicking on a check box to turn it on forces any other check box in the same group that is on into the "off" state.

QUESTION 7:

Which of the following method is used to remove all items from scrolling list in java.awt.list?

- a. hide()
- b. remove()
- c. clear()
- d. close()

Correct Answer: c

Detailed Solution:

The function clear() in java.awt.list is used for remove all items from scrolling list.

QUESTION 8:

Which of the following statement is **FALSE** about the `update()` in `java.awt` package?

- a. Sets the color of the graphics context to be the foreground color of this component.
- b. Calls this component's paint method to completely redraw this component.
- c. Updates the component by checking an online repository.
- d. Clears this component by filling it with the background color.

Correct Answer: c

Detailed Solution:

The `update()` function does not update the component by checking an online repository rather it, sets the color of the graphics context to be the foreground color of this component, calls this component's paint method to completely redraw this component and clears this component by filling it with the background color.

QUESTION 9:

Which of the following is the latest graphics and media package for Java?

- a. Applet
- b. AWT
- c. Swing
- d. JavaFX

Correct Answer: d

Detailed Solution:

JavaFX is a set of latest graphics and media packages in Java that enables developers to design, create, test, debug, and deploy rich client applications that operate consistently across diverse platforms.

More details can be found here: <https://docs.oracle.com/javafx/2/overview/jfxpub-overview.htm>

QUESTION 10:

If `setText(String text)` is a method of `Label` class, then why it is called non editable?

- a. Because user-input is unavailable during runtime.
- b. A `Label` is just a `TextField` with non-editable property turned on.

NPTEL Online Certification Courses
Indian Institute of Technology Kharagpur

- c. Labels are editable by default.
- d. `setText(String text)` is not a method of Label class.

Correct Answer: a

Detailed Solution:

A label class is non-editable during runtime by the user, but internal functions can change the text using the `setText(String text)` function.
